Love vs. Money.
Special to the Cincinnati Commercial.

New York, Nov. 5.—Much fashionable interest is centered in a wedding to take place in Trinity Chapel, November 16, at which Dr. Dix is to officiate. The lady is the daughter of Professor Charlier, age twenty, and beautiful. The young man is Mr. Howe, the Private Secretary of Postmaster Pearson. He is of good family, but poor. When Charlier, who has not objected to Howe's attentions to his daughter, heard of the engagement, he forbade it. Another sister and the young brother of the girl took the lover's part, and were ordered out of the house. Dr. Morgan, of St. Thomas' Episcopal Church, declined to marry the couple without Charlier's consent, but Dr. Dix, of Old Trinity, who has looked into the matter, says the young people are right, and he will perform the ceremony on November 16. Postmaster General James son Frank is to be the best man, and President Arthur's son one of the ushers. The father says he will forbid the bans and Dix says he will read, and then go with the young man. Charlier says his principal objection is his daughter's youth. The affair creates much interest in fashionable circles. The wedding is to be large. The girls are now staying with friends, and the young man, who is going to give his sister away, has left a letter and gone to work in a store. When his father, who is very rich, ordered him out of the house, he gave him a \$20 bill. It is expected that a great crowd will attend the wedding.

Mr. Charles Darwin's most recent book treats of the formation of vegetable mould through the action of worms. "We have seen," he says, discussing their mental qualities, "that worms are timid. It may be doubted whether they suffer as much pain when injured as they seem to express by their contortions. Judging by their eagerness for certain kinds of food they must enjoy the pleasure of eating. Their sectional passion is strong enough to overcome for a time their dread of light. They perhaps have a trace of social feeling for they are not disturbed by crawling over each other's bodies." The intelligence of worms has been made the subject of prolonged and profound study by Mr. Darwin. The great philosopher has occupied whole days and nights in observing "mere worms," which to non-naturalists are regarded as supremely unimportant.

A train on the Northern Pacific was twice obstructed by bullfrogs some days ago near the border line between Montana and Dakota, and was forced to come almost to a standstill. There were a number of soldiers aboard armed with repeating rifles, and nearly every passenger had one or more revolvers. They all joined in a brisk fire at the bullfrogs, which numbered sixteen the first time and twenty to thirty the second; but the animals seemed wholly indifferent to the bullets. None of them fell or even showed signs of being wounded, and the train was unable to proceed until they saw fit to turn tail and scamper off.

Farnborough Hall, the hew home of the Empress Eugenie, stands in grounds of 200 acres; well timbered, with splendid gardens, and amid a charming homelike country. The estate was bought for her for \$50,000, although it is said that the mansion alone could not have been built for less than \$20,000. Alterations are being made which were originally estimated to cost \$17,000, but it is probable that nearly three times that amount will be expended. The property formerly belonged to the late Mr. Longman, the publisher, who had made it very beautiful.

The liquor traffic is unusually brisk in the neighborhood of a large cemetery, but rarely intrudes into the premises as at Evanston, Ill., where five bar-rooms were open within the graveyard bounds. It was a common site, before a recent reform, to see drunken men lying on the graves, and in some cases, they were mourners gone astray from funeral processions.

Wisconsin has been trying to destroy the wolves, wild cats and foxes by offering a reward for every one killed, and in six months has expended nearly \$85,000 in this way. But those who seem to know say that the only result has been to increase the number of these animals, the reward offered for their destruction being an incentive to breed and raise them.

The English Wesleyans have twenty-six native preachers in Italy and thirteen hundred and seventy-six full members and two hundred and eighty-one probationers or candidates for church membership. The Methodist Episcopal Church of the United States has an entire annual conference, whose ministers, according to the latest statistics, number 17, most of whom are Indians.

In a Montreal breach of promise suit, it was shown that the pair agreed upon a day for marriage, and marked it in a calendar of her diary, and that he twice surreptitiously rubbed out the mark and put it on the last occasion, and sought by a recourse to the law to compel him to keep the original promise.

A party of mulatto girls appear at one Chicago variety theatre as "Yanabacke Geisha dancers, direct from the tea gardens of Tokio," and at another establishment, the same evening, as "genuine Comanche maidens," their natural color answering both purposes, though their features do not.

Nursery Notice.
R. Armstrong, the pioneer nursery man of the West, is bringing to this place from the celebrated nursery of W. & T. Smith, Geneva, N. Y., a large consignment of fruit and ornamental trees and shrubs, and plants of all kind, for spring planting. Give him your order, and get choice trees and in fine condition. He is located with us, and will be pleased at all times to assist those that are beautifying their homes with any information that he can give. Address box 45, Las Vegas, N. M.
